

Post-Collision Analysis Worksheet

Answer the following questions to help determine the cause factors that led to the collision.

1. Were you following too closely? Yes No
If yes, why? _____

2. Were you distracted? Yes No
If yes, why? _____

3. Were you fatigued? Yes No
If yes, why? _____

4. Were you in a rush? Yes No
If yes, why? _____

5. Did poor road, weather, lighting or equipment conditions impact your ability to drive safely? Yes No
If yes, why? _____

6. List any other factors that may have caused the collision. Identify if each factor was remote (occurring well before the collision) or direct (occurring immediately before or during the collision).
_____ Remote Direct
_____ Remote Direct
_____ Remote Direct

Consider how you can avoid the factors listed above to minimize your risk of collisions in the future.
