

Safety Plans Made Simple

Take advantage of our written OSHA Safety Plan solution! At Protective Insurance Company, we understand that it is very difficult and time-consuming to write a safety program that includes current OSHA guidelines and regulations. That is why we have partnered with OSHA Fast Fix to offer a new service to our customers that provides your business with a solution that makes safety plans easy!

BENEFITS

Implementing a safety program keeps employees at work and prevents lost productivity and business revenue. When your employees are injured, you will miss out on your monthly incentives and your agreements could even be cancelled. Over time, these injuries will also impact your experience modification rate (MOD), raising your insurance costs.

HOW IT WORKS

Safety plans are available in both English and Spanish. The safety plans are written so that employees who are not safety professionals can understand them. They are personalized for your business with your company name and address on the front page and throughout the entire document. Each safety plan focuses on individual regulations and standards so the business is able to address one safety issue at a time. Included with these safety plans are simple self-audit questions that will help your business review safety issues.

These safety plans are delivered to your business via email in Adobe Acrobat (PDF) format or by disk (CD). Based on the information contained in each safety plan, your business is able to attach your own company-specific safety policy and procedures to create a total OSHA-compliant safety program that meets OSHA guidelines and regulations.

VALUE

A complete set of personalized, industry-specific safety plans can cost up to \$500, but we have access to these plans at an incredible value that we are able to pass along to you.

Ask your loss prevention representative for details by calling 800-317-9402.

Ordering is easy! Complete the form on the following page and submit via email.

Baldwin & Lyons, Inc. and its subsidiaries do not provide the above plans and are not responsible for the content of such plans or your reliance on the information contained in these plans. Baldwin & Lyons, Inc. shall not be responsible for any damages arising out of the reliance of you or any of your employees, agents, contractors or affiliates on any information provided by OSHAFF.
