

Protective Insurance is now Progressive Fleet & Specialty Programs

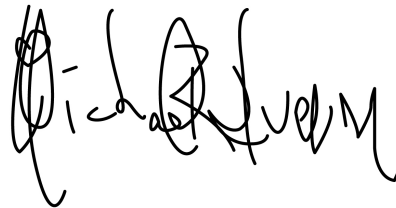

Same great service. New name.

Protective Insurance is in the process of changing its name to Progressive Fleet & Specialty Programs, Progressive Fleet for short. We've been a part of the Progressive family for two years now, and our research confirms that this name change will benefit everyone. By integrating internal systems and eliminating redundancies, Progressive Fleet will be a stronger, more efficient company.

As a Protective Insurance customer, you will continue to submit claims the same way you have in the past – [online](#) or by calling (800) 626-8381.

We are excited about this change and the benefits it brings to all involved. Over the next few months you will begin to see changes take place – email addresses, logos on materials, etc.

Thank you for being a valued partner. We look forward to many more years of working together!
