

Idelic Safety Suite®

The Idelic Safety Suite® is the most comprehensive driver management platform in the transportation industry. It consolidates all fleet data systems into one single data management platform, giving fleets unparalleled visibility into their drivers' behavior and safety operations.

How it works

INTEGRATE SYSTEMS

- Seamlessly integrate and connect all third-party systems into a single, easy-to-use platform
- Access all operations data and quickly gain insights to make data driven decisions and track their impact over time

PREVENT CRASHES

- Automatically flag at-risk drivers to help prevent critical crashes and ensure your fleet is compliant and safe
- Powerful predictive models built on 20+ years of rich data with unparalleled accuracy in predicting and scoring unsafe drivers

RETAIN DRIVERS

- Reward and promote your best drivers to accentuate your safety culture from within
- Identify at-risk drivers and assign training and/or corrective action to help them perform at their best

REDUCE RISK & LIABILITY

- Consistently record and track driver compliance, behavior, and corrective action to eliminate costly negligence claims
- Feel confident self-insuring with reduced frequency and severity of claims, producing savings that directly translate to your bottom line
