

## ITI Pro-TREAD

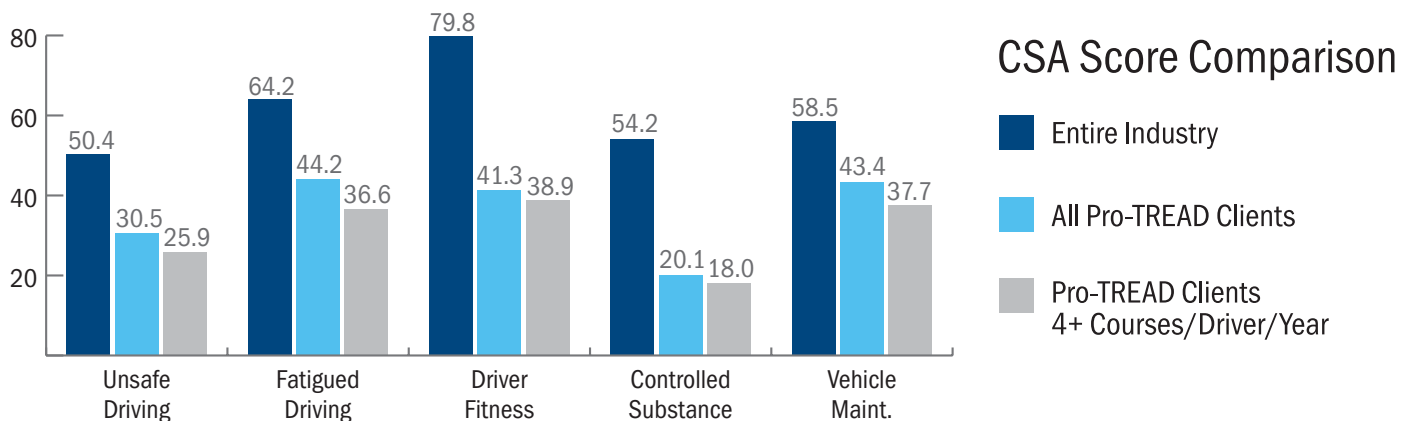

The quality of your training matters. You want to offer your drivers interesting and appropriate content that they will pay attention to – instruction that makes a difference to them and your company. Pro-TREAD is the solution that follows the lifecycle of your drivers, from onboarding services to proactive and remedial training.

### *How it works*

**Pro-TREAD:**

- Keeps things interesting with gaming-quality animation; no lectures or death by PowerPoint
- Offers you variety with a huge library – more than 55 hours of content – and topics in both transportation and fleet operations
- Allows your drivers to train wherever they are with a mobile app for iOS and Android
- Keeps managers informed with tracking of progress and completion

Integration with your telematics system can initiate incident-based training, closing the gap between when you knew there was an issue and when you did something about that issue.
