

## QP3 Ergosystems

QP3 Ergosystems works with companies to uncover and address safety risks. Their highly-qualified and responsive team of experts provides clients with one-stop risk consulting services.

### *How it works*

Every company operates differently and uses different equipment. QP3 consults with each client to create a custom assessment plan.

#### **THESE PLANS CAN INCLUDE:**

- Risk assessments and recommendations related to:
  - Safety
  - Ergonomics
  - Industrial hygiene
  - Property
  - General liability
- Hazardous materials management, assessments and recommendations
- Engineering
- Root cause analysis
- Ergonomics project facilitation
- Training programs (including OSHA 10- and 30- hour courses)
- Regulations compliance (including Cal/OSHA)

The assessment report will contain information linking job tasks to recurring injuries and provide actionable recommendations that can reduce your loss costs by 10 – 25 percent. QP3 focuses on practical examination, problem-solving and clear steps that result in real improvement.

#### **PRICING**

Pricing varies based on the range of services required. Qualified Protective Insurance customers receive a **10 percent discount.**
